V(5th Sm.)-Zoology-H/Pr./CC-11P/CBCS

# 2021

## ZOOLOGY — HONOURS — PRACTICAL

### Paper : CC-11P

### Full Marks : 30

### Time : 2 hours

#### The figures in the margin indicate full marks.

**1.** Write the principle with equation and procedure to determine free  $CO_2$  from given water sample. Calculate the free  $CO_2$  from the given observation table. Comment on your result. (3+2+5)+3+2

| NO. OF OBSERVATION | INITIAL BURETTE READING (ml) | FINAL BURETTE READING (ml) |
|--------------------|------------------------------|----------------------------|
| 1.                 | 2.6                          | 2.8                        |
| 2.                 | 2.1                          | 2.4                        |
| 3.                 | 2.4                          | 2.6                        |

2. Calculate the pH and comment on the nature of the samples A and B.

| Sample no. | pH reading 1 | pH reading 2 | pH reading 3 |
|------------|--------------|--------------|--------------|
| А          | 5.9          | 6.1          | 6            |
| В          | 11           | 11.4         | 11.5         |

- 3. Write the principle and procedure to determine salinity of given sample.
- 4. Identify the following zooplankton with identifying features.

Specimen A

(1+1)×2

3+5 1+2
